Inspiration

- **Language** reveals the engine of our souls, our mind.
It illuminates us and energizes us.
We share it with all we meet.
It is **the cognitive fire** of human life.

D. L. Everett, *Language, The Cultural Tool*

Student Linguistic Association NKL WAT
Naukowe Koło Lingwistyczne NKL WAT**

Language and security in the military context

Date: 25-26 October 2022

Venue: Military University of Technology WAT, Warsaw, Poland

Conference theme and purpose

The theme of the conference is *Language and security in the military context* and it invites th participants – officer cadets and civilian students, to explore challenges regarding security an language matters. In the contemporary world, English has become a global language, the lingua franc of military alliances and international organizations alike. It has also become the language of interoperability for students at military academies. Nevertheless, the importance of the nativ language cannot be neglected, as it is the primary language of everyday communication in the plac of study or work for the vast majority of militaries.

Main focus areas:

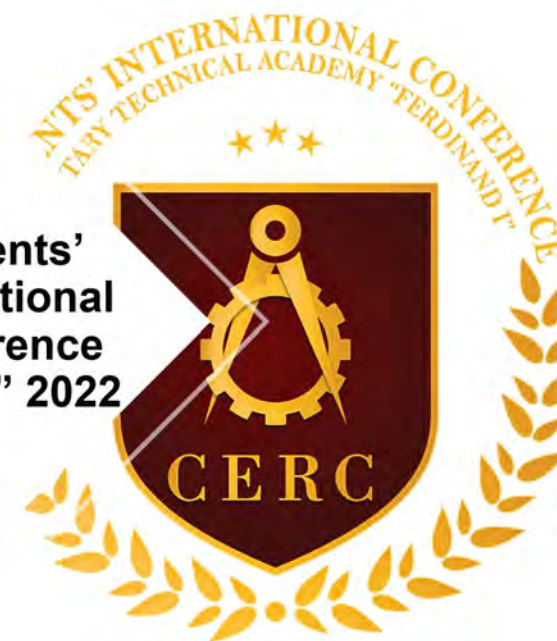

- Language in the security context
- Language and cultural awareness
- Language and technology

**The conference under the auspices of
COMMANDANT-RECTOR**

Col. prof. dr hab. inż. Przemysław Wachulak
